

# MediShield Life

## Better Protection. For All. For Life.

All Singaporeans will benefit from MediShield Life protection regardless of health status, throughout our lives.

**Better Protection** against large hospital bills and outpatient treatments like dialysis and chemotherapy for cancer.

**Affordable Premiums** with Government support.

- For Pioneers and lower- to middle-income families

- For all Singapore citizens

- Lifetime top-ups for Pioneer Generation
- Top-ups for 5 years for those aged 55 - 64 in 2014

Most households will not have to pay for the increased premiums in cash. Government subsidies and the additional 1% employer Medisave contribution will help to cover the increase in premiums.
